This research is entitled The Strategies of Islamic Religious Education Teachers in Overcoming Bullying Behaviors at *MTs Nurul Huda of Kauditan II* District. At the school, bullying actions frequently occur verbally and physically. Therefore, this research intended to find out the forms of verbal and physical bullying behaviors, the strategies that the teacher incorporates, as well as the challenges and solutions in addressing the bullying. Hence, the research utilized the qualitative research method, a form of field research.

Based on the research result, the forms of verbal bullying include mocking, calling peers with their parents' names, using foul language, and threatening. Physical bullying forms involve pushing and pinching peers and throwing things. The strategies that the teacher employs consist of giving counsel to stop bullying. Furthermore, the teacher narrates stories that provide insights to the students who conduct bullying. Moreover, there are punishments for them such as cleaning toilets, class, and yards. If the case of bullying is severe, it will be handled directly by the school counselor and the class teacher. If not resolved, the case will be dealt with directly by the school principal.
